

contact information

Stan is our entry level fence with an elegant profile that offers subtlety and refinement in landscape and pool settings.

- available in 0.9m and 1.2m heights
- slimmest panel on the market
- excellent value

- fully welded construction
- hot dip galvanised and powder coating option
- easy to install

economy

Stan is better constructed and more competitively priced than many of its mid range rivals.

versatility

With fully welded 6mm solid bar uprights spaced 75mm apart, and square section rails, Stan gives nothing away in strength and is very easy to install.

durability

Duke is a versatile range that comes in a number of different configurations, including the classic loop and rod, ring, rod top or fat top styles.

- available in 1m and 1.2m heights
- stylish and strong
- wide choice of finishes

- choice of 200 colours
- smooth pre galvanised steel
- optional rod/ decorative top

economy

versatility

durability

The classic look of Duke is a favourite with those who enjoy a traditionally styled fence. You can choose from a wide selection of capped tube ends (finials) like the Fleur de Lys to create an elegant finish to your fence.

Choose Max when you want additional strength with style: the strongest in the residential market today.

- available in 1.2m height
- strongest welded panel

- hot dip galvanised and powder coating option
- fully welded construction
- easy to install

economy

Max's fully welded verticals are 8mm in diameter: the strongest in the residential market.

versatility

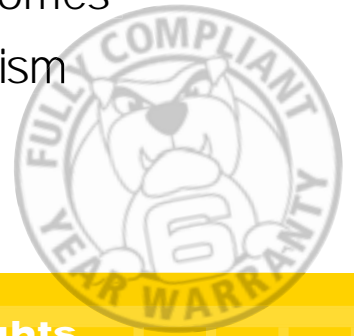

Since Max pool fence is hot dip galvanised you are ensured of extra long life.

durability

Boss provides a Heritage look and comes with a unique clip-in locking mechanism that increases strength.

- available in 0.9m and 1.2m heights
- hugs contour on slopes
- easy to install

- smooth pre galvanised steel
- raking to 22°
- choice of 200 colours

economy

versatility

durability

The square steel construction of Boss comes with a unique assembly system that increases strength compared to other modular fence types, and is easy to install.

Boss can be installed without cutting, welding or modification on sloping ground (maximum of 22 degree angle) making it perfect for undulating sites.
