Fence Upgrade

Nga Iwi Primary School were in need of a new fence. Watershed Property, Projects & Aquatics Consultancy, the school's grounds manager, contracted Hampden for the project as they knew Hampden were able to keep to the high spec and regulation that schools expect.

Hampden removed the existing fence and replaced it with 56m of 1.8m high Wrought Iron fencing with hot-dipped galvanised finish. The fence has two access gates: one for pedestrians, the other for vehicles.

For more information please visit www.hampden.co.nz or call the Hampden team.
